TELEPHONE INTERVIEW

The applicants' attorney appreciates the courtesy extended by the Examiner during the telephone interview on December 29, 2006, regarding the present application. The amendments in this paper are made in light of the matters discussed in that call.

In the call, amendments to the specification were requested to incorporate newly added Figure 5 in the prior response. The proposed modifications to the Brief Description of the Drawings, and proposed modifications to the first two paragraphs in the Description of the Preferred Embodiments, to incorporate newly added Figure 5 are intended to address this request.

In the call, a review of the specification was requested to update the status of this co-pending application listed at page 2 of the specification. Further review of the prosecution history revealed that this co-pending application was updated with a corresponding application number in the Amendment dated May 16, 2005. According to PAIR, this application remains in the process of prosecution and remains unpublished. Therefore, it appears that no further action is needed.

In the call, certain amendments to the claims were discussed. As requested, claims 1 and 19 are amended to better explain the meaning and context of the "most probable" data entry window. Claim 4 is amended to eliminate any interpretation that may be considered an endless loop. Claim 35 has been cancelled, and claim 38 has been amended to incorporate the elements included in claim 35. Further, claims 36-37 and 39 have been amended to claim dependency to claim 38 instead of claim 35.

In view of the foregoing, it is submitted that this application is in condition for allowance. Favorable consideration and prompt allowance of the application are respectfully requested.

The Examiner is invited to telephone the undersigned if the Examiner believes it would be useful to advance prosecution.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'BP', followed by a long horizontal line extending to the right.
